To Whom It May Concern:

Poonam Bajaj visited my Balance Disorders Lab from September 14th through September 22nd. During this time Poonam participated in lab studies, met with lab members and familiarized herself with my work on balance.

It was a pleasure having Poonam visit.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Fay B Horak". The signature is written in a cursive style with a large, sweeping initial "F".

Fay B Horak, PT, PhD
Senior Scientist, Neurological Sciences Institute and
Professor of Physiology, Neurology and Biomedical Engineering
